

Bill Knott

In my life span, I have been, amongst others, a miner, a child psychologist, a university professor in S. Australia and Alberta, an E. D. of a national sport body, and an assistant to Federal M.P's and Ministers of the Crown.

I have played all sorts of sports as a younger person but my major sport was skydiving; during 25 years of which I led Canada to two World Championships. I also represented my country in team long range rifle shooting. Today, I compete in viciously contested scrabble games with my wife.

I served in the military in my home country before immigrating to Canada and belong to the Canadian Legion.

I donated more than 300 times for blood products and donated a kidney, anonymously.

I have volunteered in communities since the age of 10 (church) and now, in Portage, have volunteered with heritage, housing and political organisations.

I support City Planning, the Library, the critical infrastructure needs of roads, water and sewage and Crescent Lake.

I welcome all newcomers in Portage and have a special understanding of being older !

If you elect me, my first effort will be to, again, have a Question Period at Council meetings. The outgoing Councillors removed the right of voters to ask questions.

This must be replaced.

You may ask any question of me.

I ask for your vote - mark an X next to my name on the ballot, please !

Thank you, merci, obrigado, dyakuyu tobi.
